

Max-T-Mins

WATER-SOLUBLE MINERAL SUPPLEMENT

What is Max-T-Mins ?

Max-T-Mins is a water-soluble, multi-mineral, trace element mix specifically formulated to optimise herd health and performance

Why use Max-T-Mins ?

Offers a simple and effective way to provide daily micro-mineral requirements.

Contains trace-minerals to strengthen the cow's immune system and improve the overall health of your herd.

Targets (effective) cows typically eating 16-22 Kgs of dry matter per day.

What are the benefits of using Max-T-Mins ?

Simple to use

Minimum losses – improves utilisation

Improved herd health

Specifications for Max-T-Mins

Cobalt	10mg
Copper	300mg
Iodine	20mg
Manganese	200mg
Selenium	10mg
Zinc	800mg

Recommended Dose Rates for Max-T-Mins:

5.0 grams per cow per day.
Max-T-Mins will not affect water palatability at recommended dose rates.

Methods for Administering Max-T-Mins

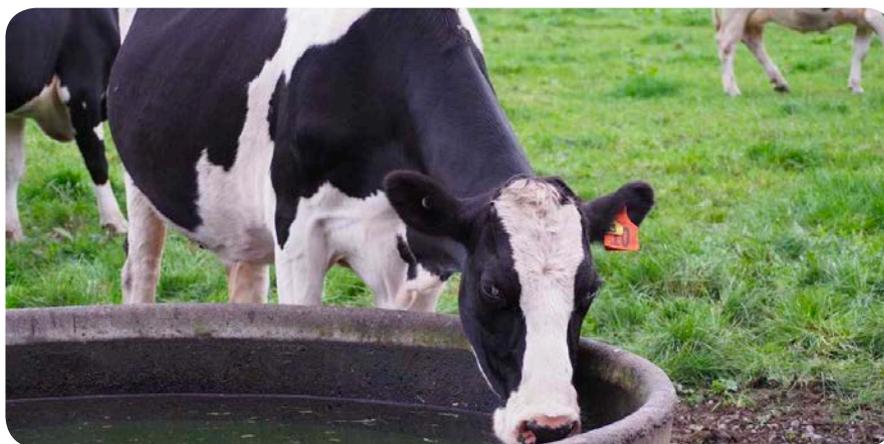

Max-T-Mins has been formulated for use with metered in-line water dispenser systems such as Dosatron and is not recommended for use in non-metered or individual trough dispenser systems.

Measure into a separate bucket the daily volume of Max-T-Mins required based on 5.0 grams per cow per day. Dilute with approximately 4 x the volume of water. Follow the dispenser manufacturer's instructions for mixing until the product has fully dispersed. Pour into dispenser solution tank and dispense as per the manufacturer's instructions.

Max-T-Mins Quality Assurance:

To ensure that the products supplied to our customers meet the highest possible standards, Max-T-Mins is manufactured under an Integrated Management System covering various aspects of quality, safety and environmental protection including ISO9001, Good Manufacturing Practice, Hazard Analysis and Critical Control Points (HACCP), Feedsafe® Accreditation standards and AS/NZS4801 standard requirements.
